

HOW TO USE A QR CODE

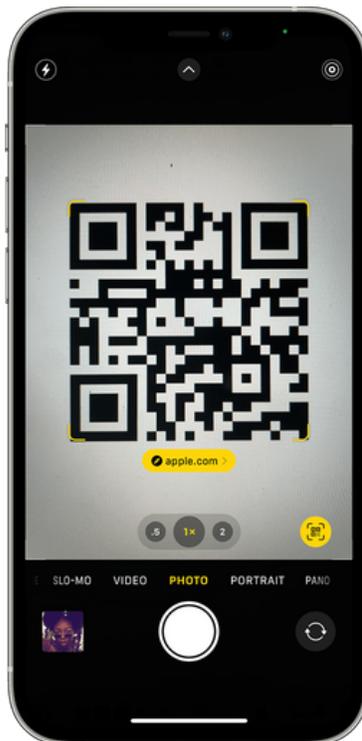

QR CODES SEEM TO BE POPPING UP EVERYWHERE. BUT, WHAT ARE THEY, AND HOW DO YOU USE THEM?

QR Codes are unique patterns of shapes that correspond with a webpage. By scanning a QR code, you can visit a website without having to manually type a URL.. Here is how to use them in 3 easy steps.

1. Open your phone camera

2. Focus your camera on the QR Code

3. Click the website link when your phone reads the code.
